

AMENDMENTS TO THE ABSTRACT:

Please amend the Abstract as follows:

In a combination contract, ~~for each leg or sub-contract,~~ up to two different prices can be selected ~~for each leg or sub-contract. and allocating the~~ The number of products ~~that the multiplier states for each leg or sub-contract are allocated~~ between the two prices. Allowing each sub-contract to be traded at, ~~at least, two~~ different price ticks within the spread ensures a ~~solution with a correct net price for the~~ each combination contract, which can be repeated any number of times ~~(combination quantity)~~.
